ance Notes on Codes and Abbreviations" appearing at the begin-
ning of each regular issue of the PCT Gazette.

(54) Title: **GRIP WAX OF SKIS, A METHOD FOR WAXING SKIS AND A PRODUCT FOR WAXING SKIS**

(57) Abstract: The invention relates to a grip wax of skis containing polyisobutylene base, resin as grip material and wax as glide material. Furthermore, the invention relates to a corresponding method and product for applying grip wax on skis to the ski bases. In the method, the grip wax is melted to form a uniform film over a transfer substrate; a strip of desired length and having the width of the ski is prepared of the transfer substrate; the strip is pressed with the wax surface facing downwards against the ski base and is pressed in place in ambient temperature without external heating, and the transfer substrate is withdrawn from top of the wax film that stuck to the ski bases, and the waxing is completed.
